

## AC'SCENT Emission Isolation Flux Chamber (Flux Hood)

### RENTAL AND APPLICATION NOTES:

- Shipping Weight and Dimensions: 20lbs., 26in x 19in x 19in
- Sample Collection from Liquid and Solid surfaces.
- Portable and convenient.
- Stainless Steel construction with quick disconnects.
- Extra fitting on hood for adding a thermocouple probe.
- Includes: SS chain, 50-ft rope and inner tube.

### SPECIFICATIONS:

- Designed to use with a personal sampling pump
- Dimensions: 16in (0.41m) diameter, 0.13m<sup>2</sup> Area
- Flux Rate: 3.25L/min (typical)
- Volume: approximately 25L when floating on a liquid surface
- Sampling rate: typical 1-2L/min, when the flux rate is greater than 3L/min
- Manufacture: St. Croix Sensory, Inc
